

Dear Parents/Guardians,

Today marks 'Safer Internet Day 2021'. It is extremely important that children know how to stay safe when using the internet so this week pupils will be learning about internet safety. In addition, the theme of our assembly this week will be 'The Internet.'

We will be asking the children to speak to their parents/guardians about staying safe on the internet. This is an important conversation which you should have with your child/children.

We have shared some tips for our pupils on our website which can be seen here [Internet Safety Tips for Children | Claremorris NS](#)

Here are some resources which may be useful to you:
